Hey Judy I'm still unable to find child care at the moment I will not be able to return back to work it's very unfortunate but I would love to be able to come back next year if that's an option I loved the time I got working for you guys. Let me know if there is anything I have to do.

Thank you for your email Miriam. I certainly understand. We would love to have you back. If anything changes, please let me know. I would need to have you return your key card and any keys you might have to me.

I will forward your email to Angie. Take care and hope to see you back at some point.
